Welcome to the 2016 Langco/Kueber bull and female sale! It is hard to believe another year has passed, and another exceptional year for the cattle industry with record high prices, combined with more access for canadian cattle to foreign markets the future definitely looks bright. We are pleased to again have a strong group of coming 2 yr old black angus bulls on offer along with 4 shorthorns. We believe these bulls are as honest ranch bulls that you will find. They are raised and developed right, culled hard, made rugged, and ready to go to work! Again this year we have 25 Angus X Shorthorn top cut replacement heifers on offer that were a highlight of last years sale season. Congratulations Tyson Bieleny on your pen of blue heifers at farmfair, as there is nothing more gratifying as a breeder than to see your customers having success. New to this years sale is a group of 10 purebred black angus heifers straight out of the replacement pen. If you are looking for some fresh genetics to add to your herd or starting a herd this group is a good cross-section of our own breeding program. We invite you to check out the sale offering at the farm prior to the sale otherwise we look forward to seeing you sale day.

Mike Kueber

Ty Kueber

Welcome to our 3rd Annual Bull Sale held at the Viking Auction Market. Once again, we are happy to team up with the Lang family to present a set of functional, useable cattle that are ready to work in their respective environments this spring. With the overall-strong cattle market, it is a great time to be in the cattle business and especially great to see beef producers reap the long awaited, well-deserved rewards.

Our 2016 offering is strong top to bottom and is an example of the traits we select for; balanced phenotype, athletic, structurally sound, predictable performance, and maternal. Each of the bulls in the sale is out of a "flat-out-good" angus cow. The type of cow the Angus breed is known for; low maintenance, beautiful uddered, efficient, and durable. The group is led-off by the first set of Embryo Transfer sons off our cornerstone donor, Lady Blossom 3R. We are really excited about the genetic potential of these mating's, and feel both mating's are extremely balanced in terms of offering the sought after combination of phenotype, feed efficiency, and maternal strength.

The bulls selling have been managed on a high forage diet for a conservative gain with longevity and integrity in mind. In preparation for the sale, the bull pen was pictured mid December, and we would like to invite our customers to view the bulls continued development in their home environment prior to the sale.

With much gratitude, we would like to thank our past customers, the sales staff, and fellow breeders for the continued support in this great industry. We look forward to enjoying pre and post sale hospitality with you on February 12th 2016.

Heavy Si 57Z was a top seller in the 2013 Daines Ranch bull sale. He was selected for his combination of structural soundness and tremendous amount of muscle shape. This hard muscled, hairy sire is becoming known by his progeny, which exhibit the same stout rear leg, hindquarter, length of body and striking phenotype. To top it all off, Heavy Si doesn't just "have the look", he is from a no-nonsense, ranch-based breeding program, backed by many of the breeds most influential sires. In his first calf crop, Heavy Si sired 2 division winners at Farmfair, and a pen of 3 bulls exhibited at the National Western Stock Show in Denver among other accolades. In just one season, Si has proved himself as an influential sire in our program. For the 2015 Breeding season, US semen on Heavy Si will be available and distributed by Origen/ABS. Owned by Northline Angus, Kueber Farms & 4K Land and Cattle.

A feature ET calf off the great Lady Blossom 3R cow and the sought after ORigen sensation, RB Active Duty. Tebow has been a performance star all fall and maintains one of our highest ADG, and WW indexes. Tebow pounds down the scale every weigh-in, yet he remains smooth made and moderate in his stature. Like his sire, Tebow defines acceleration from birth to weaning, and possesses the power, eye appeal, and capacity that is demanded today. In terms of phenotype, Tebow was an anchor bull in our Medicine Hat and Camrose string and most notably was admired for how deep flanked, wide based, stout-made, and expressively patterned he is. Active Duty semen is extremely limited and commanded over \$400 a straw in the Argibition sale. Tebow is an opportunity to "get in" on fresh, limited, performance genetics which are reinforced by the practicality and heritability of the Lady Blossom 3R Donor. Tebow is ready to execute all the plays this spring.

A good EPD tabulation on this Hoover Dam son out of a Bada-Bing two year old heifer. Moderate in stature, but a real performer in the bull pen with one of the highest ADG. Deep ribbed, wide topped, nicely patterned through his stifle and lower third; massive width to his pin set. Hoover Dam progeny are quickly becoming known for their combination of muscle and docility. No other bull in the breed can match Hoover Dams Ribeye EPD with that level of accuracy. We certainly "dropped the ball" not including this guy in our Medicine Hat and Camrose string. Recommend for use on cows.

A Harvestor off of a Bennet Total we selected from Remitall last spring to use in our clean-up pen. This year we have limited heifers and decided to use a son off of an up and coming donor of ours, thus we are offering Bruin 41B. We selected 41B based on his smooth-made phenotype, balance, maternal strength and great breed character. The Harvestors as a sire group highlighted and lead many sales last spring both in Canada and the U.S. It should be noted that Bruin 41B was a twin at birth.

Power, performance, and phenotype. A feature ET calf and lead off bull from our Medicine Hat and Camrose string. Willis has been an absolute standout since birth and has always lead the pack in terms of being the hairy, dimensional, big-hipped, deep sided, thick-topped- type. Willis is massive in his pin-set, explosively muscled through his hind third and possesses an abundance of rib shape while remaining really stout in his hindleg and attractive in his phenotype. His dam, Lady Blossom 3R is the cornerstone of our transplant program. She is the model angus cow: beautiful uddered, huge barreled, structurally sound-and really "gets it done" in terms of transmitting the muscle shape, expression, and thickness to her progeny. Willis is the rare combination of performance, power and phenotype. **Retaining 1/3 Semen Interest, 1/3 Possession.**

Manning 30C is a maternal sibling to our feature bulls Willis 6C, Tebow 10C, and Double Duty 12C. He himself, is a feature in his own right. Very similar to his flush-mate, Willis 6C, in terms of his pattern and design. Manning 30C offers a touch flatter shoulder and a bit less age, but he packs the same punch when it comes to phenotype, dimension, stoutness and athleticism.

## TERMS & CONDITIONS

**TERMS:** The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

**BUYERS REGISTRATION:** Buyers please register for a buyer number at the office prior to purchasing.

**BREEDING GUARANTEE:** All bulls are guaranteed to be fertile & reproductively sound in accordance with the rules & regulations recommended by the breed associations. All bulls will be semen tested.

**ANNOUNCEMENTS:** Errors in this catalogue will be corrected by announcements from the block at sale time & such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

**ACCIDENTS:** Although every precaution will be taken, All Persons who attend the Sale do so at their own risk. The owners, management and the sales staff assume no liability, legal, or otherwise for any reason.

**CERTIFICATE OF REGISTRATION:** A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

**INSURANCE:** Bulls who go back the seller's farm must be insured by the buyer, insurance agents will be in attendance.
