Welcome to the 2022 Langco/Kueber Bull Sale. I hope everyone has survived the historical heat-waves, catastrophic droughts, atmospheric rivers, Delta and of course the dreaded Omicron. Never have I ever, been so happy to be stuck on a farm attending to the cows. Now if I could throw the TV out the window, life would be back to normal. Once again this year, we feel we have a super set of powerful long yearling bulls, that will go out and breed lots of cows. But, we experimented a little, and have 2 pretty neat yearling calves, out of our new herd bull, Coleman Encore. He is a full brother in blood to Bravo, and we feel fortunate to have him walking our pastures, along with Delivery and Brinks. These bulls we know inside and out, what will work and what won't. We encourage you to come to the farm, presale, and walk through the pens, but if not we would be glad to discuss any of the lots, by phone or on sale day. Also new to this year's sale, are 20 blue roan bred heifers (shorthorn x angus) due April 1st. This cow thing, could get stupid this fall, so this might be an opportunity to purchase some fine cows. Of course, Mike and Tyler are bringing their good yearling red and black bulls, but also a group of purebred open heifers for sale. There should be something for everyone! February 11th at the Viking Auction Mart.

We are not a yearling outfit, but this year we have 2 exciting herd sire prospects out of our new herd sire Coleman Encore 949. 255J has been a stand out since birth, exhibiting great thickness and muscle expression on a moderate frame. He is quiet as a kitten and easy to handle. Pictured is his excellent mother by Broken Bow, and is definitely our front pasture cow. No creep.

Mike Kueber

Cell: 780.385.1546

Tyler Kueber

Cell: 780.385.0999

Welcome to our 9th Annual Bull Sale held at the Viking Auction Market. Once again, we are happy to team up with the Lang family to present a set of functional, useable cattle that are ready to work in their respective environments this spring.

2021 certainly came with many unexpected challenges, but as tradition in the agriculture community we adapted to the challenges and continue to persevere. At this time we would like to thank our friends and family; Andre Jodion, Terry Elliot, Ken, Greg and Dillon Kueber for getting us get through 2021 whether that be on the grain or cattle side of the operation.

For our 2022 sale COVID-19 protocols will be in place sale day- stay tuned for details. We strongly encourage and welcome you to the farm prior to the sale to view the bulls and dams in their home environment. Internet bidding/streaming will once again be provided by DLMS and we encourage the use of that service for those who are familiar.

Within our 2022 offering we feel we have a relatively uniform group of smooth made, calving ease bulls that are structurally correct and do not sacrifice shape or performance. Each of the bulls in the sale is out of a "flat-out-good" angus cow. Throughout the footnotes you

will see added information on each lot to help describe our program and inform your decision. We emphasize on cow families and have expanded our herd in recent years through the use of embryo transfer. In embryo transfer we can single out our top producing females and leverage their heritability and genetic potential to build around at a faster pace.

The bulls selling have been managed for a conservative gain with longevity and integrity in mind. In preparation for the sale, picturing of the bull pen was a bit rushed during the polar vortex the end of December and we would like to invite our customers to view the bulls continued development in their home environment prior to the sale.

As always, we offer complimentary wintering of the bulls until the beginning of April. Furthermore, every bull in the sale sells with a 100% satisfaction and sight-unseen guarantee.

With much gratitude, we would like to thank our past customers, the sales staff, and fellow producers for the continued support in this great industry. We look forward to enjoying pre and post sale hospitality with you on February 11th 2022.

CRESCENT CREEK ROSEBUD 115F

Five feature flush brothers from our cornerstone donor Rosebud 32Y noted for their expressive stifle, lower quarter and rib shape. Year after year, 32Y produces curve bending, phenotypically correct, extremely maternal progeny that are easy to market. This mating to Impressive 813F was designed to increase dimension, power, performance, scrotal and phenotype while maintaining the high maternal value of this prolific cow family. 55J is the biggest frame and most expressively muscled of the group while 56J and 61J are the closest to pattern him in a more moderate frame size. 53J, 54J are two lower birthweight options with smaller heads but still offer the same length, balance, athleticism and maternal backing.

Of the 34 calves 32Y has produced to date- only four females have left the farm and were picked up by leading seedstock producers; MWC Investments, Everblack Angus, Gracedale Stock Farm and Rockytop Cattle Co. Here is an opportunity to get behind 5 sustainably developed, big topped, loose hided, well balanced flush brothers, ideal in their performance, type and foot structure. We have successfully used Impressive 813F and other 32Y sons on heifers and these sons look to offer moderate birthweight in the same fashion.

I wish we had use Maximus more... the heifers in the replacement pen are astounding and these two sons highlighting this sale are the epitome of modern angus genetics; they are extremely performance oriented with a tonne of grow and yield, yet they stand on a good foot, have lots of hair, and possess the maternal genetics to ensure these traits are propagated far beyond a few breeding seasons. Maternal brother to 81J highlighted a past sale selling to Mike Fawcett.

Sale feature & the only son born for us in 2021 off outcross AI Sire McCumber Tribute. Tribute is making his name in the angus breed for siring eye appealing, low birthweight cattle with good structure and grow. A flushmate to the dam is our most ideal young cow who is destined for the donor pen. The Annie K family is synonymous with herd bulls and donor dams working in many herds across the nation continuing to provide the commercial producer with the 'angus advantage'. 51J himself is a big chested, docile bull that commands your attention with his expressive muscle pattern, attractive correct phenotype, and low BW. His dam is an angular, jet fronted female that has the same internal dimension as he does. Dam 19J is ideal in her teat size and placement and was a good mother yet remained docile.

Two feature full brothers from the beautiful Creamsoda cow and U2-Dominon (Wesson) who was a past highlight from U2 Ranch selling to ST Genetics in TX. These Dominion calves are stout made, big hipped, expressive in their muscle shape, and deep bodied with a tonne of rib shape. This sire group demonstrates a square, stout hip that is unique to red angus, a solid dark foot, and moderate BW. In our opinion these flushmates could be used on larger framed heifers.

An ultra complete Dominion whose only flaw is he is a bit short in the ear department. 84J is another thick made, big chested, docile, stout and stylish dominion off of our best Goodfella daughter. This calf is a maternal sister to the Lakima heifer we sold for \$26,500 USD in the 2020 Northline Reds Southern Sale. Our management mistake (ears) could be your gain in attaining this high quality individual. One has to admire the lower quarter, wide pinset, scrotal shape and size of the second youngest in the sale.

Big League 544R and Creed 75W – definitely one of the most unique and complimentary matings you will come across this spring. Dam 187W is typical of the Creeds; massive dimension, big boned, stout, huge topped while remaining extremely maternal. Here is a small headed bull that offers low BW, an expressive lower quarter, soft flank and wide pinset. Sire, Big League 544R is tried and true- used by some of the top operations in the business. Daughters of Big League contributed to the historic U2 dispersal and sons have highlighted bull sales and claiming titles such as national champion red angus in the show ring. Not only is 71J ideal phenotypically, his genotype is as solid as they come.

TERMS & CONDITIONS

TERMS: The terms of sale are cash or cheque. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full, unless other arrangements have been made prior to the sale with the individual contributor. Every animal sells to the highest bidder, in the case of disputes, the auctioneer's decision will be final, and becomes the risk of the purchaser. We reserve the right to withhold animals from shipment for whom payments have not been received prior to departure times.

BUYERS REGISTRATION: Buyers please register for a buyer number at the office prior to purchasing.

BREEDING GUARANTEE: All bulls are guaranteed to be fertile & reproductively sound in accordance with the rules & regulations recommended by the breed associations. All bulls will be semen tested.

ANNOUNCEMENTS: Errors in this catalogue will be corrected by announcements from the block at sale time & such announcements will take precedent over any printed material. Any disputes will be settled by the auctioneer.

ACCIDENTS: Although every precaution will be taken, All Persons who attend the Sale do so at their own risk. The owners, management and the sales staff assume no liability, legal, or otherwise for any reason.

CERTIFICATE OF REGISTRATION: A certificate of registration duly transferred will be furnished to the buyer by the breeder for each registered animal after complete and full payment has been made.

INSURANCE: Bulls who go back the seller's farm must be insured by the buyer, insurance agents will be in attendance.
